Chautauqua Notes and Notations.

A number of prominent business men of our community have rendered a great service to their fellow citizens by pledging their support to the coming Chautauqua, thus making it possible for all of us to hear some of the best talent on the American platform. Not only have these men pledged their loyal support, but they have jointly signed a contract to stand behind the proposition in the matter of finance. Only public spirited citizens, men who have the interest of the community at heart, are instrumental in providing us with recreational advantages of this nature, and they deserve the hearty co-operation of all the citizens in the community.

We as a community, should pride ourselves in supporting the class of entertainment which comes to us through Chautauqua. This is the one organization in the entertainment world which has the three virtues of the human triangle primarily at heart, mental, moral and spiritual development. It is, indeed, a privilege to support this class of amusement.

If a sufficient number of citizens attend the Chautauqua to make the proposition a success, the community will find itself in position to continue these programs in future years. In order to make our Chautauqua a success, it will take the closest co-operation on the part of all of us. Not only is it our privilege to buy season tickets, but is also our duty to help advertise the Chautauqua in every way possible. Remember, we are not only helping make the Chautauqua a success in so doing, but we are at the same time showing our loyalty to our fellow citizens who made the Chautauqua possible, and we are also advertising our town and showing our civic pride.

Remember the dates 9th 10th and 11th and let us all co-operate with the ticket committee in order that the financial success of the program may be assured before the opening date. Ask your neighbors if they have purchased their tickets.

Elsewhere in the paper you will find the three day program in its complete form.
